PREFACE

In1988, R.R. Bowker published the first edition of *Variety's Complete Home Video Directory*. Utilizing the vast entertainment resource of Variety along with Bowker's database and directory development knowledge, R.R. Bowker produced the definitive "home video" database and video directory. Throughout two editions, this directory served both the video and the library industries, providing the very best, most authoritative information on home videos.

In 1989, after considerable research and in response to patron requests, Bowker began the process of expanding the scope of the Variety database beyond the limitations of home video, in order to better serve the ever-widening video *community*. While users found the Variety directory useful, they expressed interest in more information that went beyond entertainment and home video. The result was *Bowker's Complete Video Directory 1990*.

This edition—*Bowker's Complete Video Directory 2010*—retains this emphasis.

VOLUMES 1, 2, 3, & 4

Each volume is formatted the same way—complete descriptive and ordering information for each entry is in the Titles section, followed by several cross-referencing indexes in Volumes 2 and 4.

Volumes 1 and 2 include more than 71,909 Entertainment and Performance titles.

Volumes 3 and 4 feature more than 137,643 educational and special interest videos (documentaries, how-to's, certain sports titles, and other videos directed toward specialized audiences) and educational programs.

THE INDEXES—VOLUMES 1 & 2

The Awards Index located in the prefatory section lists major film and television industry awards by year. The

Genre Index in Volume 2 covers 364 entertainment genres, of which 15 are related to Hollywood movies; in addition, there are foreign films (36 sections), animated features and silents. Other subjects include sports events (in 22 categories), television series and variety shows, children's programs, concert and music videos, and more. A complete list of all genre headings precedes the main Genre Index; it includes page numbers for easy reference.

The Cast/Director Index is in Volume 2, where the smaller Spanish Language, Laser Videodisc, and Closed-Captioned indexes are also found. Volume 2 concludes with the sections that direct the user to the Manufacturer Name Index, and Wholesaler and Distributor Name Index.

THE INDEXES—VOLUMES 3 & 4

The Subject Index in Volume 4 encompasses a wide range of approximately 529 categories, with subjects as diverse as Acupuncture and Anthropology to Word Processing and Yoga. A full list of subject headings with page references to the main Subject Index is also included here.

The smaller program indexes cover Series, Laser Videodisks, the 8mm Format, Closed-Captioned videos, and International Standards. Volume 4 concludes with the Manufacturers and Distributors Name indexes.

TITLE SELECTION

The selection of titles for Volumes 1 and 2 was based solely on the entertainment and/or performance nature of any given program. For example, while Hollywood and foreign feature films posed no selection problems (if a feature was produced for the purpose of theatrical exhibition, it's either in Volume 1 or 2), opera and dance are included in the Entertainment volumes only if the material is a public performance of some kind; how-to, documentary, and biography titles in those arts are considered "Special Interest", and can be found in Volumes 3 and 4. Similarly, athletic highlights and events have been deemed entertainment and can be located in Volumes 1 and 2, under individual sports within the genre "Highlights and Matches," while the remainder of the thousands of sports videos are in the Education/Special Interest volumes, indexed under each sport in the Subject Index.

Children's titles also cover a wide range of interests and subjects. In keeping with the above-stated policy, however, only children's programs that are considered purely entertainment are included in Volumes 1 and 2 (movies, made-for-television programs, storybook dramatizations and the like). Special interest and educational titles for children are in Volumes 3 and 4, indexed under the specific subject in question. For example, the Volume 4 subject categories "Pets," "Hobbies," and "Music–How-To" all contain programs developed for children, as well as "Cheerleading," "Holidays," and various academic disciplines (e.g., "Language Arts," "Science"). Religious programs, too,

pose some classification questions, as some of the biblical dramatizations and presentations could perhaps be perceived as Entertainment. The established policy, however, is that except for feature films with a religious basis, such as *The Greatest Story Ever Told* (listed under the heading Religious Drama), religion is considered Special Interest, and thus appears in Volumes 3 and 4.

ISBN AGENCY

Educational and Instructional Videos should be assigned an International Standard Book Number by the producer. All ISBNs listed in this directory have been validated by using the check digit control, ensuring accuracy. ISBNs allow order transmission and bibliographic information updating using publishing industry supported EDI formats (e.g., ONIX). Publishers not currently participating in the ISBN system may request the assignment of an ISBN Publisher Prefix from the ISBN Agency by calling 877-310-7333, faxing 908-219-0188, or through the ISBN/SAN web site at http://www.isbn.org. Please note: The ISBN prefix 0-615 is for decentralized use by the U.S. ISBN Agency and has been assigned to many publishers. It is not unique to one publisher.

SAN AGENCY

Another listing feature in *Bowker's Complete Video Directory* is the Standard Address Number (SAN). The SAN is a unique identification number assigned to each address of an organization in or served by the publishing industry; it facilitates communications and repetitive transactions with other members of the industry. The SAN functions in its application to activities such as purchasing, billing, shipping, receiving, paying, crediting and refunding, and can be used for any other communication or transaction between participating organizations. To obtain an application or further information on the SAN system, please visit the ISBN/SAN web site at www.isbn.org. The editors wish to extend their thanks to the manufacturers, distributors, and suppliers who provided information for *Bowker's Complete Video Directory.* It is our goal to provide the best, most thorough, most comprehensive directory of home and educational video available. Users' suggestions and comments about the information and format of the directory are always welcome.

HOW TO USE THIS DIRECTORY

The 2010 edition of *Bowker's Complete Video Directory* was produced from the Books In Print database. Volumes 1 and 2 (Entertainment) contain 71,909 entries, while Volumes 3 and 4 (Education/Special Interest) cover approximately 137,643 entries. Program titles are available from approximately 8,646 manufacturers who are listed in the Manufacturer Name Index in Volumes 2 and 4, along with addresses, phone and fax numbers, e-mail and web site addresses, and other pertinent information. The Wholesaler and Distributor Name Index provides contact information for 1,304 video wholesalers and distributors. Word-by-word alphabetizing is utilized in each section of the directory. Therefore, *Man of La Mancha* precedes *The Manchurian Candidate* and *On the Waterfront* appears before *One Flew Over the Cuckoo's Nest*. The articles "A," "An," and "The" are ignored in alphabetizing, as are their foreign counterparts.

Volumes 1 and 2 (Entertainment) of *Bowker's Complete Video Directory* contain descriptive listings for feature films and other performing arts and entertainment events, all available to the home video market. Following these annotated entries in the Titles section are a total of twelve Indexes.

If the title of a specific program is known, it may be found merely by checking the Titles section. The two major indexes are the Cast/Director Index and the Genre Index. The works of a favorite performer or director that are available on home video can easily be found by inspecting the Cast/Director Index, while a review of the Genre Index can identify the programs available in any one of the 364 entertainment genres. A separate list of genre headings is included so that users may easily reference the genres in the main index. Other indexes are useful for locating titles that have particular characteristics (Spanish Language, Series, Closed-Captioned, Awards) or those that are available in another form (Laser Videodisc, 8mm, or the International Standards PAL and SECAM).

Each entry in the title index, of course, contains complete ordering information and indicates the source of the program. These sources are listed in the Manufacturer Name Index, with addresses, phone and fax numbers, and other helpful information. Companies listed after the abbreviation "Dist(s):" may be found in the Wholesaler and Distributor Name Index.

TITLES

All . Entertainment titles–whether feature films, sporting events, children's shows, foreign films, made-for-television programs and specials, silent movies, dance and opera performances, dramatized adaptations, comedy concerts, or musical performances–that are available on videocassette for the home market are listed alphabetically. Each entry contains the following information, in the order shown, when available:

Title, subtitle, volume number or total number of cassettes, original or translated title, original source, theatrical release date, subject (or subjects), hue (black-&-white, color, or colorized), running time, series title, series volume or number, closed-captioned symbol, MPAA rating, language, dubbed/ narrated/subtitled, video release date. (NOTE: Closed captioned titles are indicated by use of the service mark CC®. This registered service mark identifies programs closed-captioned by the National Captioning Institute, used by permission.)

This information is followed by contributors (actors, producer, director, screenwriters, composers, and others).

The annotation, or program description, is the next item of information, followed by major awards earned by motion pictures and other programs.

The rest of the entry presents ordering information, including the program manufacturer or license-holder; the formats and standards available; supplementary materials; preview and rental information; the manufacturer's or distributor's suggested retail price; the UPC, ISBN-13 followed by (in parentheses) the check digit for the ISBN-10, or the Library of Congress number, and the order number. When applicable, distributor(s) are listed at the end of the entry, after the abbreviation "Dist(s):" and their related price(s). "Price not set" indicates that no retail price has yet been issued by the manufacturer or distributor.

In some cases, forthcoming titles will be listed when the release date is not yet known. All data will be included for these titles, but the phrase "Date not set" will appear instead of the video release date. In other cases, popular movies may have been available in the past and will perhaps be in the future, but are not currently in active distribution. These titles will also be included, but in place of the ordering information, the phrase "withdrawn from distribution" will appear. And for those programs that have been given a special promotional sale price for a limited time, we will include all applicable information regarding the temporary price. All prices are manufacturers' or distributors' suggested retail prices at date of publication.

CAST/DIRECTOR INDEX

An alphabetical listing of all performers and directors is included in this index. Each name is followed by an alphabetical listing of the movies or programs featuring that person, which can then be examined in the Titles section for complete information about the program.

LIST OF GENRE HEADINGS

This new index is a brief alphabetical list of all genres available in the main Genre Index, with a specific page reference number for each.

GENRE INDEX

The Genre Index arranges all entries from the Titles section alphabetically in more than 364 categories. In addition to Hollywood and foreign feature films on video, the Genre Index also categorizes more than fifty other entertainment and performance genres, including athletic events/highlights in all the major and most of the minor sports; dance, opera, and Broadway shows in performance; a vast array of children's entertainment programming; made-for-television features, series, and specials; comedy and musical concerts; and made-for-video performances and dramatizations. Programs relevant to more than one genre are included in each applicable category. When a program in a particular genre (e.g., Musical Concerts–Jazz, Western, Highlights and Matches– Golf) is sought, check that category for titles and then look up the programs in the Titles section, for complete descriptive information.

SERIES INDEX

Responding to users' requests, this index has been developed to identify and detail the series that have been so designated by manufacturers (e.g., the MGM/UA Diamond Jubilee Collection), as well as a selection of the more popular of these feature films that are concerned with continuing characters or themes (e.g., The Thin Man, Rocky). Every title that comprises each series is listed here.

SPANISH-LANGUAGE INDEX

This index consists of a listing of those titles that were produced in Spanish-speaking countries, as well as the programs that are narrated in Spanish or have been dubbed or subtitled in the Spanish language. Complete program information about each title can be found in the Titles section.

CLOSED-CAPTIONED INDEX

Many programs on videocassette are closed-captioned for the hearing impaired by the National Captioning Institute, in both the Entertainment and the Education/Special Interest areas. The Closed-Captioned Index lists these programs alphabetically by title.

AWARDS INDEX

This index is arranged chronologically by the year in which the award was presented. It lists movies available on video that have won major international film industry awards, television programs that have won the top Emmy awards, and video programs that have been chosen as the best program of the year by the Video Software Dealers' Association (VSDA). The following awards are included:

Academy Awards:
Best Picture Best Supporting Actor
Best Director Best Supporting Actress
Best Actor Best Foreign Language Film
Best Actress Best Documentary Directors

Guild of America:
Features

Golden Globe Awards:
Best Dramatic Motion Picture
Best Musical/Comedy Motion Picture
Best Foreign Film

The titles selected as the best of the year by the following groups are also noted:

Berlin International Film Festival
British Academy Awards
Cannes International Film Festival
National Academy of Television Arts and Sciences
National Film Registry
National Society of Film Critics
New York Film Critics Circle
Venice Film Festival
Video Software Dealers' Association

MANUFACTURER NAME INDEX

All companies listed in the Title entries as the manufacturer of the video programs are listed alphabetically with complete addresses, telephone numbers, fax numbers, e-mail and web site addresses. A dagger preceding an entry and the notation "CIP" at the end of an entry both indicate that the manufacturer participates in the Cataloging in Publication Program of the Library of Congress. If applicable, a list of company's distributors appears at the end of the entry. Full information for these distributors may then be found in the Wholesaler and Distributor Name Index. The manufacturer is the original source or supplier of the program or movie; it may be the current licensee, the copyright holder, or the company whose label appears on the videocassette package. Many, but not all, of the feature films on video were produced by a major Hollywood studio, then licensed to the home video division of that studio, which is listed here as the manufacturer. All area, regional, and national distributors that have titles in Volumes 1 and 2 are included in the separate Wholesaler and Distributor Name Index.

Cross-references are used in this index for two purposes: (1) certain video divisions of major home entertainment companies are referenced to the parent company and (2) companies that have undergone a name change or have been acquired by another company within recent months are referenced to the new name or new owner.

WHOLESALER AND DISTRIBUTOR NAME INDEX

In addition to video wholesalers, all distributors listed in the Title Index and/or the Manufacturer Name Index may be referenced here. Companies are listed alphabetically by their abbreviated names, followed by full address, telephone and fax numbers, and e-mail and web site addresses.

Off the Hook: Workplace Fashion Secrets for All Ages, Shapes, & Sizes, 2 discs. 103 mins. Video Released Jan. 2005. Produced by Melange International. In today's competitive job market, developing a wardrobe and personal image strategy is a must. "Appearance matters," said Donald Trump during a recent appearance on the Today show. Personal and professional images are reemerging as critical issues for the workforce. The current, female-oriented "makeover craze," very popular among reality and TV talk shows today, slices and dices a female's image, remakes her into Queen for a Day, but then rarely gives her the inside scoop on how to sustain and/or change that image. Off to War: From Rural Arkansas to Iraq. (2005). Color. 452 mins. NR. Video Released Sep. 2006. Directed by Brent Renaud, Craig Renaud. From the farms and fields of Arkansas to the deadly streets of Baghdad, Off to War tracks the citizen soldiers of the Arkansas National Guard as they come face to face with the horrors of war. Never before has a unit of soldiers been followed from the beginning to the end of their deployment at war. In April 2004, filmmakers Brent and Craig Renaud arrived in Iraq with the Arkansas National Guard during one of the bloodiest months to date. Within twenty-four hours of their arrival, one of the guardsmen lay dead. By the end of the first month, they had lost more soldiers than any other National Guard Brigade in Iraq. From actual scenes of full-scale combat to a soldier's funeral, from the birth of a first child to the heartbreaking return home of a critically injured soldier, Off to War tells the story of a war in a way it has never been told before - through the eyes of the soldiers and families back home who endured it. The Old Testament. (2002). Color. 75 mins. (Chinese, Subtitled; English). One of the first Chinese openly-gay underground films to make it to the big screen, "The Old Testament" offers a rare glimpse at gay life behind communist borders. Biblical references weave together three engaging vignettes on the topics of sexuality, homophobia and AIDS. In "Song of Solomon" a male couple receives an unexpected visitor: an ex-boyfriend with AIDS. Faced with a commitment to provide hospice care for the former lover, the couple must confront the demise of their own relationship. "Proverbs" follows the love triangle between a married man, his wife, and his gay lover. As the bisexual husband attempts to get the best of both worlds, the feuding wife and lover begin to wonder if he is worth the fight. "Psalter" concludes the trilogy as a straight couple schemes outrageously to prevent the husband's younger brother from sleeping with his "special friend". Water Bearer Films. DVD. On Television: Public Trust or Private Property. (1988). Civics. Mass Media. Television-History And Criticism. Color. 56 mins. Age: 14-UP. (gr. 9 up). Directed by Mary Magee. "Public Trust or Private Property" poses the key question underlying 50 turbulent years of U. S. Communications policy. Most viewers will be surprised to learn that they, the public, own the airwaves. But, the Communication Act of 1934 authorizes the licensing of commercial broadcasters to develop this scarce national resource in exchange for serving "the public interest, convenience & necessity." Former Reagan FCC commissioner Mark Fowler & heads of the three networks assert that the public's interest is what interests the public; the government regulation. Media reformers Henry Geller, Ralph Nader, Fred Friendy, Dr. C. Everett Parker & Senators Tim Wirth & Ernest Hollings respond that, in a democracy, information is too important simply "to be bait to get viewers to look at commercials." "Public Trust or Private Property" tests these competing claims through several in-depth case studies. California Newsreel. VHS. (ISBN: 978-1-57254-060-6(5)); 3/4" U-Matic.

On Your Own as a Young Adult, 1 videocassette. 16 mins. CC (YA). Age: 15-UP. Video Released Sep. 2005. Each year, 25,000 young people age out of foster care systems and are forced to be on their own. These young people are at a high risk of failure simply because they leave the child welfare system unprepared to reach their potential. They have intelligence and talent and long to be participating citizens-to hold jobs, to play a role in their community, to live in safe neighborhoods, and to raise their children to be educated and healthy. Instead, teens raised in foster care and considered ?at-risk? too often join those without high school degrees, those in prison, those forced onto welfare-reliant on society for their existence. On Your Own as a Young Adult teaches these young people to advocate for themselves and to take control of their lives. Foster care youth are our primary audience, but this material has also been successful with high school and community college students who have had family problems. Betsy Krebs and Paul Pitcoff, lawyers for children in family court, founded Youth Advocacy Center (YAC) in New York City in 1992 because of their deep belief in the aspirations and potential of teenagers in foster care. YAC developed a philosophy and program of self-advocacy, which empowers individual teens to take on significant responsibility for planning for their futures. The center has been so successful in its mission that it has gained national attention. Articles on YAC have appeared in the New York Times, Harvard Women?s Law Journal, and the American Bar Association publications. Furthermore, their program was approved by the National Association of Social Workers for 14 continuing education contact hours. In response to requests for guidance from other social agencies, Betsy and Paul wrote this workbook and facilitator?s guide and created a multimedia presentation, featuring Sean Nelson as one of the actors. This outstanding educational program teaches teens self-advocacy concepts and skills. It provides a foundation for them to face the challenges of independence, including job readiness and preparedness for continuing education, using informational interviews and evaluation.NOTE: Both the DVD and VHS forms of the video require the Facilitator?s Guide. Organizing for Literacy, 2 DVDs. Color. 120 min mins. (C). (gr. k-3). Video Released Jan. 2006. Author Linda Dorn. Organizing for Literacy is a professional development series for implementing a balanced early literacy program based on apprenticeship theory. When used in conjunction with the book Apprenticeship in Literacy, the series presents a complete early literacy resource, with the option of using individual videos to focus on a specific area of need.The tapes illustrate the reciprocal nature of teaching and learning across a range of reading and writing events. Each tape is designed to allow you to view it in its entirety or to focus on specific literacy components. The accompanying Viewing Guide is structured to promote the analysis of teaching and learning interactions during these components. The tapes can also be cross-referenced for evidence of how the same children are applying their knowledge, skills, and strategies across a range of reading, writing, and word-building activities. Since this is an important principle of apprenticeship literacy, a chart for cross-referencing teaching segments across the four tapes is included at the end of the viewing guide. Stenhouse Pubs. Other Families. (1993). Homosexuality. Family. Color. 49 mins. *Made-for-Video*. Directed by Dorothy Chvatal. This new program explores perceptions & feelings of seven adults, from ages 18 to 40, who were raised by lesbian mothers. It confronts the questions so frequently asked by skeptics of today's new family structures: "Sure, it looks fine now, but how are the kids going to turn out? What kinds of problems will they have growing up?" At least to judge by these seven interviews, the answer is that they've turned out just fine: with some problems, to be sure, but the only problems that all seven share are those arising from the need they or their parents felt to keep secrets from a society that did not accept their kind of family. The seven people interviewed reflect on their relationships with their mothers, with other family members & friends, & on some of the confusion they faced growing up. Fanlight Productions. VHS. In our personal longings for the fullness of life, often a mysterious cry for maternal love springs from the human heart. Is it possible that a spiritual mother could allay the tears and fears of the people of the third millennium? In the sixteenth century, Our Lady of Guadalupe miraculously appeared to a poor little man named Juan Diego. Through her motherly love, she offered him great consolation. Her appearance and miracles lead to the conversion of millions of indigenous people. But does Our Lady of Guadalupe have any relevance to the people of the third millennium? Paris: Story of a City: Medieval to Modern Within a Century. Architecture. France. B&W. 52 mins. Age: 14-UP. (gr. 9 up). Directed by Stan Neumann. The present film was made to mark the centenary of the death of Baron Haussmann in 1891. Historian Francis Loyer combs the city, scrutinizing objects that are so familiar we no longer see them: a wooden shutter, the angle of a street, a carving on a facade. 'Haussmannism' is often seen as a kind of urban vandalism presaging the great modern devastations in the name of progress; it can also look like totalitarian imposition by an authority eager to control & police its populace & to suppress revolution. In this film, however, Haussmann's scheme is considered as a rigorous & coherent means of controlling the growth of a city. French version available. Roland Collection. VHS. Patrick. Color. 53 mins. mins. CC Video Released Jan. 2004. This docudrama, presented by Faith & Values Media, takes a new look at one of the best-loved and least-understood icons of world religion. The story of the real St. Patrick is part adventure tale and part spiritual awakening, with the future saint rising from slave to liberator; learning to forgive and ultimately love his enemies; taking up a cause no one believed in; and finally lighting a fire that kept western civilization alive. His legacy has had an impact not only on Ireland, where he was able to forge a ground-breaking synthesis of Christian faith and Celtic traditions, but also on all of civilization. This portrayal of the life of Patrick, who lived in the fifth century, was shot on location in Ireland, using actors in period dress to recreate scenes from Patrick?s life. It features the voices of two of Ireland?s top actors, with narration by Liam Neeson, and Gabriel Byrne as the voice of Patrick. On-camera commentary is provided by Frank McCourt, renowned Irish-American author of Angela?s Ashes, who offers keen insight into how a foreign evangelical would have interacted with the Irish. Additional commentary is provided by noted scholars and authors.People of all faiths will find this an enthralling and challenging story. Vision Video. VHS. (ISBN: 978-1-56364-775-8(3)) $19.99; DVD. Picking the Best Stocks & Strategies for Every Option Trade. Color. 90 mins. mins. Video Released Apr. 2004. Instructed by James Bittman. What's the biggest mistake most option traders make? It's sticking to just one specific option trading strategy, regardless of the underlying asset, claims CBOE instructor and "Trading Index Options" author James Bittman. By contrast, the truly successful option traders pinpoint the most attractive underlying stock - and then select an option strategy based on its precise characteristics.Now, an in-depth new workshop from the "Trader's Hall of Fame" winner outlines precisely how to find the best stocks to use as a foundation for successful option trades - and how to select the right strategies to trade them. From outright call & put purchases, to naked put sales, covered call positions, spreads or collars, Bittman provides step-by-step methods for choosing the right stocks and the perfect strategies for trading them - time after time. You'll even discover when outright purchase - or short sale - of a stock is really the best option of all.Bittman's five-star presentation highlights:-The difference between ?trading? and ?investing? with options-The psychology underlying long- and short-term stock-price moves-An ARMS-based trading strategy ? identifying overbought & oversold conditions-The importance of determining support & resistance levels for timing entry/ exit points.-Charting tools that aide in selecting prime trading prospects-Developing discipline and a definitive exit plan - the true key to trading profits?No strategy is the best in every situation, but one strategy is the best in any one given situation,? Bittman says ? and in this outstanding presentation he shows you exactly how to isolate that strategy on your next options trade.Online support manual is available at: www.traderslibrary.com/tradesecrets.
